THE fight for the Iowa senatorship has begun in earnest at her state capital. Wilson leads, with chances in favor of Kasson and Gear. Kirkwoood positively declines. Wilson is the administration candidate.

"IN Ohio," says an exchange "they make a great ado about the inauguration of a governor, but the governor when installed is not a formidable creature. He cannot veto a bill; he has no executive residence; he is without influence upon legislation, and can do nothing more than appoint notaries public, and, as in the case of the incumbent, pay a presidential aspirant's hotel bills."

A CORRESPONDENT of the Cincinnati *Enquirer* says: "I heard that the ladies are praising Mrs. Pendleton's new house for its exquisite inner taste. Some who know about it state that Mr. Pendleton is worth about $300,000, and has to stick to his profession until he acquires enough money to keep house in three places at once. He got his Newport property when it was not costly. His Washington house he has some what stinted in space, but put the charms in knicknacks."

THE democrats of South Carolina and other localities have had serious charges made against them by their opponents for the alleged use of tishue ballots. Whether these charges are true or untrue, it will be of interest at this time to know that the man who is entitled to the "blue ribbon" in this line is not a democrat, but a prominent candidate for a position in President Arthur's cabinet. He is none other than "Effigy" Sargent, of California This ticket invented and used by this immaculate politician is described as follows by the New York *Sun:* "The ballot is a strip of pretty stiff cardboard, five inches long and only half an inch in width. On this narrow slip are printed, in microscopic type, the names of twenty-nine candidates approved by Effigy Sargent. The lines run the length of the ballot, the names are crowded together, and there isn't a hairbredth of available white surface on which the finest pencil point can find a foothold. The reverse is covered with an eleborate and striking pattern in purple and green. It looks like the back of a playing card. The object of Effigy Sargent's invention was to rob the employes at the Mare Island navy yard of free suffrage in the election of 1871. These tape-worm tickets, so called, were voted at Vallejo by the navy yard employes, under pain of dismissal. Sargent's friends—John M. Coghan, candidate for congress in the third district of California, and M. J. Wright, candidate for assemblyman—were in danger of defeat, through their unpopularity with government employes. Effigy Sargent's intellect, which is sometimes underated by those who do not know him, was called upon to meet the emergency; and the result was this tape-worm ticket, a contrivance perhaps unique in the history of popular suffrage—a ballot which it was physically impossible for the voter to scratch, to paste, to fold or to reject without immediate detection and punishment. The outrage was so flagrant that, in 1872, the year following the invention of the tape-worm ticket by Effigy Sargent, the California legislature passed a law prescribing a uniform ballot."

How to Put Out a Fire.

The following from an insurance paper, is worthy of perusal:

Firemen would do well to bear in mind that one gallon of water at the bottom of a fire will do more to quench it than ten gallons at the top. "Play low," is the motto of the firemen. To play on the roof of a house on fire is to waste water; rain does not put out a kitchen fire. Be sure to play low; get the water near the fire, and then you need not pour out a river. A few gallons at the bottom of a fire will raise in clouds of steam when the fire is rising, and quench it.

Even a heap of rubbish turns water like a partial roof. A gill of water thrown into the bottom of a grate equals a quart thrown on top. For a similiar reason, water on the windward side is more effective than on the leeward. This applies to a moderate fire, where there are only two or three houses burning. The big blaze on the leeward looks fearful, but it cannot be affected by playing on that side. Throw the water in the bed of coals under the retort that is sucking them and it will go out—that is to say, play to the bottom of the windward side of a fire and you take the surest and speediest way to quench the whole leeward side, blazes included.

MISCELLANEOUS NEWS.

The Guiteau Trial

WASHINGTON, Jan. 9.—Guiteau arrived at the court house about half-past 9 and was taken to the waiting-room He appeared rather nervous, and his countenance indicated anxiety. When he had taken his seat in the dock he glanced around stealthily over the audience and immediately began a harangue, evidently intended for the jury. "I have received," he said, "some 800 letters, a majority of them from ladies When I get time I shall attend to them. I want to send my greetings to the ladies of America and thank them for their sympathy. They don't want me to be hanged. Public opinion is fast changing. I received Saturday a check for $1,000 from the Stalwarts of Brooklyn, and another for $500 from the Stalwarts of New York. I want this jury to understand how public opinion is on this case."

A bailiff here tried to silence him, when he turned upon him in the most vicious manner and snarled out: "You keep quiet and mind your own business. Do not interfere with me when I am talking. If you had any sense you would understand your place."

With this opening breeze the proceedings in due form were begun, and Scoville resumed his argument.

Scoville proceeded without interruption for an hour. His remarks were listened to with marked attention. He laid stress upon the propositions that insane men often knew the difference detween right and wrong, and for that reason concealed their plans; that the benefit of the doubt should attach to the plea of insanity when raised with the same force used in connection with the commission of a crime His allusion to the decision of Judge Davis, who "went out of his way," he said "to pass upon something not involved in the case he was then considering," brought Judge Porter to his feet with an indignant reply that the charge was false. Scoville retorted, the opinion of a man who sat on the same bench with a Barnard and Cardoza should not be received with much consideration.

Judge Porter with even more vehemence reiterated that the charge of council was absolutely false; that Judge Davis never sat on the bench with either of the gentlemen named. "If the honor of a member of the Federal judiciary is to be put on trial here, I demand," said Porter, "that the record be produced here upon which this base charge is made."

Scoville insisted that when the style of proceedings best suited to the police court were introduced here by the prosecution, he should comment upon them as he deemed fitting He should not be frightened by the tragic utterances of Judge Porter. He had heard the same notes years ago from owls at night in the woods of Ohio.

Guiteau laughed, and called out sneeringly: "That's a very fine speech, Mr. Porter."

Davidge protested that not five minutes had been devoted to the proper scope of the argument, and the court warned council that they must abstain from personalities.

Scoville concluded his argument at 12 o'clock and in conclusion desired to make a few remarks of a personal character. Alluding to his controversies with Judge Porter, he disclaimed any intention to transgress the bounds of propriety or the rules of practice, but he should criticise the conduct of counsel when it merited criticism, and threats of prosecution would not intimidate him. Citing the custom of counsel on the other side of bowing to the jury upon intering, Scoville said:

"Sometimes it is three bows all around, sometimes more, but never less than three, It has never been done by counsel upon this side and I do not hesitate to criticise the propriety of it."

Judge Porter: The gentleman is simply instancing his lack of politeness. If he has no apology to offer, I shall certainly not apologize for him. Recess.

Corkhill stated he had not expected to speak on the legal points, relying on the assurance of the defense that the question of jurisdiction would not be raised, but as the last two prayers of the defense distinctly referred to that issue he felt it his duty to the prosecuting officer of the government to address the court upon the question, to which he had devoted much careful consideration. He then proceeded to read from printed slips an exhaustive argument on the subject of jurisdiction. The argument occupied the attention of the court an hour.

Davidge then addressed the court on the general propositions contained in the prayer. "I do not deem it necessary," he began, "to advert to the question of jurisdiction at this time"

"A very wise decision," piped the prisoner.

Davidge then discussed the question of malice, which, he said, in the legal sense meant the intentional doing a wrongful act.

WASHINGTON, Jan. 9.—Bills introduced and deferred:

By Senator Hill, of Georgia, for the termination of the convention of Jan 30th, '75, between the United States and the king of the Hawaiin Islands.

By Senator Teller: For the deposit of silver bullion at the treasury of the United States, and the issue of certificates therefor.

By Senator Rollins. For the organization of the territory of Oklahoma.

By Senator Butler: For the creation of a body of parliamentary attorneys.

Senator Hawes' resolution for a special committee on woman's suffrage passed

Sherman's 3 per cent. bond bill was taken up, and Sherman spoke in advocacy.

House.

WASHINGTON, January 9.—Mr. Kelley, chairman of the ways and means committee, offered a resolution for the distribution of the president's message to the various committees of the house. Referred to the committee of the whole.

Mr. Belford reserved all points of order thereon.

Under the call of states the following bills were introduced and referred:

By Mr. Shelby: To reduce fees to be paid by officers of steam vessels for certificates of license to 50 cents.

By Mr. Page: Imposing a duty of 25 cents a pound on pyrethrum flowers and insect powder manufactured therefrom, also to admit free of duty steam plow machinery.

By Mr. Haskell: For the relief of colored emigrants.

By Mr. Caldwell: To equalize pensions; also to repeal the arrears of the pension act.

Showing up Sherman.

WASHINGTON, Jan. 9.—There is excellent authority for the statement that the senate investigation of the treasury department has not only confirmed the irregularities developed by the Meline committee, but has also brought out many additional facts regarding the mismanagement of affairs during the last four years. Testimony taken by the senate committee will reveal a long list of instances where money was misappropriated

Death of the Oldest Inhabitant

LITTLE ROCK, Ark., Jan. 8.—News has reached here of the death of Peter Mankins, at the advanced age of 111 years, three months and ten days. He was born in Georgetown, D. C., on the 19th day of September, 1770, and at the time of his death was a resident of Washington county, Arkansas. He was always a democrat and voted for Thomas Jefferson, James Madison, James Monroe, Andrew Jackson, Martin Van Buren, James K. Polk, Lewis Cass, Franklin Pierce, James Buchanan, John Breckinridge, George B McClellan, Horatio Seymour, Horace Greeley, Samuel J. Tilden and Winfield Scott Hancock. At the last presidential election the voting precinct was three miles from his home, but he rode in a wagon to the polls and voted for the Hancock and English electors. He has been a deacon in the old Regular Babptist church for the past seventy years, and was undoubtedly the oldest man in the United States. He leaves a number of children, the youngest being 70 years of age.

Havemeyer's Sugar Refinery Destroyed.

NEW YORK, Jan. 9—Yesterday fire was discovered in the wareroom on the first floor of the great sugar house of Hon Theo. A. Havemeyer, Austrian consul, at First street and South Third, Brooklyn district. The building, which was seven stories in height and covered a surface of 200 by 150 feet, became one mass of flame which lit up the whole neighborhood and river and presented a grand sight to the people on the east side of New York city. The building was used as a boiling or pan house of the Havemeyer & Elder sugar works.

Mr. Havemeyer says the loss on the building and machinery is $1,500,000. There was but little stock in the place.

The firm's insurance will probably amount to 60 per cent of the loss. It is distributed in small risks in companies all over the United States. Foreign insurance companies will suffer most, comparatively.

BY S. B. JACK.

EXCITEMENT IN ROCHESTER.

The Commotion Caused by the Statement of a Physician

An unusual article from the Rochester, N. Y., Democrat and Chronicle, was republished in this paper and was the subject of much conversation, both in professional circles and on the street. Apparently it caused even more commotion in Rochester, as the following from the same paper shows:

Dr. J. B. Henion, who is well known not only in Rochester but in nearly every part of America, sent an extended article to this paper, a few days ago which was duly published, detailing his remarkable experience and rescue from what seemed to be certain death. It would be impossible to enumerate the personal enquiries which have been made at our office as to the validity of the article, but they have been so numerous that further investigation of the subject was deemed an editorial necessity.

With this end in view a representative of this paper called on Dr. Henion, at his residence on St. Paul street, when the following interview occurred

"That article of yours, Doctor, has created quite a whirlwind. Are the statements about the terrible condition you were in, and the way you were rescued such as you can sustain?"

"Every one of them and many additional ones. Few people ever get so near the grave as I did and then return, and I am not suprised that the public think it marvelous It was marvelous."

"How in the world did you, a physician come to be brought so low?"

"By neglecting the first and most simple symptoms. I did not think I was sick. It is true I had frequent headaches; felt tired most of the time, could eat nothing one day and was ravenous the next; felt dull indefinite pains and my stomach was out of order, but I did not think it meant anything serious."

"But have these common ailments anything to do with the fearful Bright's disease which took so firm a hold on you?"

"Anything? Why, they are the sure indications of the first stages of that fearful malady. The fact is, few people know or realize what ails them, and I am sorry to say that too few physicians do either.'

"That is a strange statement, Doctor."

"But it is a true one. The medical profession have been treating symptoms instead of diseases for years, and it is high time it ceased: We doctors have been slipping off the twigs when we should strike at the root. The symptoms I have just mentioned or any unusual action or irritation of the water channels indicate the approach of Bright's disease even more than a cough announces the coming of consumption. We do not treat the cough, but try to help the lungs. We should not waste our time trying to relieve the headache, stomach, pains about the body or other symptoms, but go directly to the kidneys, the source of the most of these ailments."

"This, then, is what you meant when you said that more than one half the deaths that occur arise from Bright's disease, is it Doctor?"

'Precisely. Thousands of so-called diseases are torturing people to-day, when in reality it is Bright's disease in some one of its many forms. It is a Hydra-headed monster, and the slightest symptoms should strike terror to every one who has them. I can look back and recall hundreds of deaths which physicians declared at the time were caused by paralysis, apoplexy, heart disease, pneumonia, malarial fever and other common complaints, which I see now were caused by Bright's disease."

"And did all these cases have simple simptoms at first?"

"Every one of them, and might have been cured as I was by the timely use of the same romedy—Warner's Safe Kidney and Liver Cure. I am getting my eyes thoroughly opened in this matter and think I am helping others to see the facts and their possible danger also. Why, there are no end of truths bearing on the subject. If you want to know more about it go and see Mr. Warner himself. He was sick the same as I, and is the healthiest man in Rochester to-day. He has made a study of this subject and can give you more facts than I can. Go, too, and see Dr. Lattimore the chemist, at the University. If you want facts there are any quantity of them showing the alarming increase of Bright's disease, its simple and deceptive symptoms, and that there is but one way by which it can be escaped.'

Fully satisfied of the truth and force of the Doctor's words, the reporter bade him good day and called on Mr. Warner at his establishment on Exchange street. At first Mr. Warner was inclined to be reticent, but learning that the information desired was about the alarming increase of Bright's disease, his manner changed instantly and he spoke very earnestly:

"It is true that Bright's disease has increased wonderfully, and we find by reliable statistics, that in the past ten years its growth has been 250 per cent. Look at the prominent men it has carried off: Everett, Sumner, Chase, Wilson, Carpenter, Bishop Haven and others. This is terrible and shows a greater growth than that of any other known complaint. It must be plain to every one that something must be done to check this increase or there is no knowing where it may end."

"Do you think many people are afflicted with it to-day who do not realize it, Mr. Warner?"

"Hundreds of thousands. I have a striking example of the truth of this which has just come to my notice. A prominent professor in a New Orleans medical college was lecturing before his class on the subject of Bright's disease. He had various fluids under microscopic analysis and was showing the students what the indications of this terrible malady were. In order to draw the contrast between healthy and unhealthy fluids he had provided a vial the contents of which were drawn from his own person. 'And now, gentlemen,' he said, 'as we have seen the unhealthy indications, I will show you how it appears in a state of perfect health,' and he submitted his own fluid to the usual test. As he watched the results his countenance suddenly changed—his color and command both left him, and in a trembling voice he said: 'Gentlemen I have made a painful discovery; I have Bright's disease of the kidneys,' and in less than a year he was dead."

"You believe then that it has no symptoms and is frequently unknown even by the person who is afflicted with it."

"It has no symptoms of its own and very often none at all. Usually no two persons have the same symptoms, and frequently death is the first symptom. The slightest indications of any kidney difficulty should be enough to strike terror to any one. I know what I am talking about for I have been through all the stages of the kidney disease."

"You know of Dr. Henion's case?"

"Yes, I have both read and heard of it."

"It is very wonderful is it not?"

"A very prominent case but no more so than a great many others that have come to my notice as having been cured by the same means."

"You believe then that Bright's disease can be cured."

"I know it can. I know it from the experience of hundreds of prominent persons who were given up to die by both their physicians and friends."

"You speak of your own exnerience, what was it?"

"A fearful one. I had felt languid and unfitted for business for years. But I did not know what ailed me. When, however, I found it was kidney difficulty I thought there was little hope and so did the doctors. I have since learned that one of the physicians of this city pointed me out to a gentleman on the street one day, saying: 'there goes a man who will be dead within a year.' I believe his words would have proven true if I had not fortunately procured and used the remedy now known as Warner's Safe Kidney and Liver Cure."

"And this caused you to manufacture it?"

"No, it caused me to investigate. I went to the principal cities with Dr. Craig, the discoverer, and saw the physicians prescribing and using it and saw that Dr. Craig was unable with his facilities, to supply the medicine to thousands who wanted it. I therefore determined, as a duty I owed to humanity and the suffering, to bring it within their reach and now it is known in every part of America, is sold in every drug store and has become a household necessity."

The reporter left Mr. Warner, much impressed with the earnestness and sincerity of his statements and next paid a visit to Dr. S. A. Lattimore at his residence on Prince street. Dr. Lattimore, although busily engaged upon some matters connected with the State Board of Health, of which he is one of the analysts, courteously answered the questions that were propounded him.

"Did you make a chemical analysis of the case of Mr. H. H. Warner some three years ago, Doctor?"

"Yes, sir."

"What did this analysis show you?"

"The presence of albumen and tube casts in great abundance."

"And what did the symptoms indicate?"

"A serious disease of the kidneys.'

"Did you think that Mr. Warner could recover?"

"No, sir. I did not think it possible. It was seldom, indeed that so pronounced a case had, up to that time, ever been cured."

"Do you know anything about the remedy which cured him?"

"Yes, I have chemically analyzed it, and upon critical examination, find it entirely free from any poisonous or deliterious substances."

We publish the foregoing statements in view of the commotion which the publicity of Dr. Henion's article has caused and to meet the protestations which have been made. The standing of Dr. Henion, Mr. Warner and Dr. Lattimore here is beyond question and the statements they make can not be doubted for a moment. They conclusively show that Bright's disease of the kidneys is one of the most deceptive and dangerous of all diseases, that it is exceedingly common, alarmingly increasing and that it can be cured.

The Macoupin *Enquirer* is right when it says: "The telegraph announces that Congressman Springer introduced a bill to have the government take charge of the telegraph. We have the greatest respect for the member for the capital district, and cannot believe for one moment that he will be so foolish as to insist on any such a sheme."

Beecher Stock Declining.

Phi adelphia Times.

Beecher Stock is palpably declining even in the Plymouth congregation. When the Beecher-Tilton trial was on hand, the friends of Beecher rallied, and at the annual sale of pews in his church $70,319.50 was realized. At the annual sale for the current year the total amount realized was $2,492, with about thirty pews for which there was no purchasers at all. It looks as if the reform tide had struck Plymoth church at last. Nazarene is telling in the reduced revenues of Beecher's congregation.

The Atlanta Exposition—Cost, Size, and Result Of.

Atlanta Constitution.

The cost of the Exposition was $250,000, of which $150,000 in round figures was put in buildings and improvements, the balance paid out for running expenses, printing, &c.; that the receipts were from $220,000 to $250,000, of which $115,000 came from stock, $15,000 from privileges, $15,000 from entry fees, $90,000 from gate receipts, and 5,000 from miscellaneous sources. Add to those receipts whatever the buildings will bring, and we will have the total receipts of the International Cotton Exposition. It is safe to say, we think, that a quarter of a million people witnessed the Cotton Exposition.

The exposition did a vast amount of good in the direction of improved agriculture throughout the South. The amount of sales made of improved machinery was simply marvelous. The exhibitors all agree that they never saw a better selling exposition. There is scarcely a neighborhood in the Southern States into which an improved stump-puller, post-hole borer, plough, cotton planter, manure distributor, sulky plough, cultivator, or harrow has not gone, and when introduced will induce the purchase of others. The benefits which will come from the sale of improved machinery may be accounted among the very best benefits to be derived from the Exposition.

The Mask Removed.

Peoria National Democrat.

Probably by mistake a copy of the Quincy *Daily Herald* of Friday, January 6, 1882, has found its way to this office, through the mail. Of this issue, one space of one column and another space of two columns, which should be filled with paid and live advertisements, but are not, are filled with two advertisements of the Quincy *Herald*, each identical in matter with the other. In these advertisements it nowhere appears that the Quincy *Herald* is a democratic newspaper, but, on the contrary, particular prominence is given to "independent editorials on the questions of the day." This fact is respectfully called to the attention of republican organs who are addicted to the practice of quoting the Quincy *Herald* as a democratic paper.

The *National Democrat* has always protested against such misrepresentation of the party, and now that the *Herald* no longer pretends to be a democratic paper, but parades its "independant editorials," it again insists, more strongly than before, that the republican organs shall cease to libel the democratic party by alluding to the Quincy *Herald* as democratic, or quoting its inane, drivelings as democratic utterances. The democratic press, and the democratic party never endorsed the *Herald*'s notorious elevation of Gniteau above Garfield, and the republican papers know it. Furthermore and now more than ever, it is manifestly unfair to seek to make the democratic party responsible for anything the *Herald* may say It is nothing short of the most outrageous misrepresentation. That the *Herald* fills three columns of its space with displayed advertisements of itself, coupled with its desertion of the democratic party (for which deliverance the party is duly sensibly grateful) is sufficient evidence that the democrats have not been rallying to the support of the *Herald*, as the latter has been urging and claiming.

TRUTH ATTESTED.

Some Important Statements of Well-Known People Wholly Verified.

In order that the public may fully realize the genuineness of the statements, as well as the power and value of the article of which they speak, we publish herewith the *fac simile* signatures of parties whose sincerity is beyond question. The truth of these testimonials is absolute, nor can the facts they announce be ignored.

D. HARTER'S IRON TONIC.

Endorsed and recommended by the medical profession, for Dyspepsia, General Debility, Female Diseases, Want of Vitality, Nervous Prostration, and Convalescence from Fevers, &c.

CURE GUARANTEED. I was suffering from general debility to such an extent that my labor was exceedingly burdensome to me. A vacation of a month did not give me much relief, but on the contrary, was followed by increased prostration and shaking chills. At this time I began the use of your IRON TONIC, from which I realized almost immediate and wonderful results. The old energy returned and I found that my natural force was not permanently abated. I have used three bottles of the Tonic. Since using it I have done twice the labor that I ever did in the same time during my illness, and with double the ease. With the tranquil nerve and vigor of body, has come also a clearness of thought never before enjoyed If the Tonic has not done the work, I know not what. I give it the credit. J. F. WATSON, Pastor Christian Church, Troy, O.

The Iron Tonic is a preparation of Peruvian Bark, Iron, Peruvian Bark, and Phosphates, associated with the Vegetable Aromatics. It serves every purpose where a Tonic is necessary.

Dr. WALSTON'S CARD.

I WISH TO SAY TO THE PUBLIC that I am now, and have been for the last ten years, devoting myself exclusively to the treatment and cure of

All Chronic Diseases,

Surgery and Deformities.

CROSSED EYES

I straighten by a very small operation. I operate for CATARACT and ARTIFICIAL PUPIL and thereby restore sight to the blind. I quickly remove obstructions to the tear ducts which occasion weeping or the running of tears over on the face, and am PREPARED and ACCUSTOMED to cure all the surgical diseases of the Eye.

I cure RUPTURES of all kinds and varieties by a process entirely new and simple without the knife, thereby doing away forever with the use of trusses.

I cure all kinds of PILES or FISTULA without the knife, ligature, caustic, pain or danger.

STRICTURES, VARICOCELE, HYDROCELE and all private diseases are cured permanently and perfectly in a very short time by the LATEST REMEDIES and most APPROVED METHOD.

That very distressing and annoying train of diseases of the Bladder and Kidneys is treated with a success that astonishes the unfortunate sufferers after so many fruitless trials.

DISEASES OF WOMEN of every conceivable kind and variety can be most certainly cured. They are all perfectly curable, any their treatment is attended by no difficult whatever when they are well understood.

All diseases of the JOINTS and BONES, all SORES, TUMORS, CANCERS and ULCERS are treated and cured by those new and much improved methods for which the last ten years are famous. HIP JOINT DISEASE, CLUB-FOOT and all diseases of the BACK and SPINE are treated and cured with special success on account of some improvements of my own.

Being thoroughly furnished with APPARATUS, APPLIANCES, MACHINES, BATTERIES, MICROSCOPES, etc etc., and all modern helps, with so many years experience in this field, I am prepared to achieve success where success is at all obtainable.

It is with honest pride that I acknowledge the courtesy extended to me by the physicians of this and adjoining counties. Whatever of excellence may attend my treatment over others, is my dint of hard work, experience and well improved opportunity.

NOTICE!

WONDERFUL CURE

READ PROOF OF WONDERFUL CURES.

FREMONT, OHIO, Jan. 25, 1881.

DR B. J. Kendall & Co., Gents.—I think it my duty to render you my thanks for benefits and profits which I have derived from your invaluable and far famed Spavin Cure. My cousin and I had a valuable stallion worth $4000 which had a very bad spavin, and was pronounced by four eminent Veterinary Surgeons beyond any cure, and that the horse was done for ever. As a last resort I advised my cousin to try a bottle of Kendall's Spavin Cure. It had a magical effect, the third bottle cured it, and the horse is as well as ever. Dr. Dick, of Edinburg, the emminent veterinary surgeon, was an uncle of mine, and I take great interest in assisting his profession.

Yours truly,
JAMES A. WILSON,
Civil Engineer.

WINTHROP, IOWA, Nov. 23, '80

DR B. J. Kendall & Co., Gents—Enclosed please find 25 cents for your treatis on the horse and his diseases. I have been using Kendall's Spavin Cure on one of my horses for bone spavin, One bottle entirely cured the lameness and removed most all of the bunch. Yours respectfully,
LEROY M. GRAYHAM

KENDALL'S SPAVIN CURE

ON HUMAN FLESH.

West Enosburgh, Vt., Feb, 15th, 1881.

DR. B. J. Kendall & Co., Gents.—Several months ago I injured my knee joint which caused an enlargment to grow the size of a large walnut and caused me very severe pain all the time for four or five weeks, when I began to use Kendall's Spavin Cure with the most satisfactory results. It has completely removed the enlargment and stopped the lameness and pain. I have long known it to be excellent for horses but now I know it to be the best liniment for human flesh that I am acquainted with.

Yours truly,
T. P. Lawrence.

KENDALL'S SPAVIN CURE.

WILTON, MINN., JANUARY 11, '81

B J Kendall & Co, Gents—Having got a horse book of you by mail a year ago, the contents of which persuaded me to try Kendall's Spavin Cure on the hind leg of one of my horses which was badly swollen, and could not be reduced by any other remedy. I got two bottles of Kendall's Spavin Cure of Prestor. & Luddath, druggists of Waseca, which completely cured my horse. About five years ago I had a three year old colt sweenied very bad. I used your remedy as given in your book without rowelling, and I must say to your credit, that the colt is entirely cured, which is a surprise not only to myself, but also to my neighbors. You sent me the book for the trifling sum of twenty-five cents, and if I could not get another like it I would not take twenty-five dollars for it.

Yours truly,
GEO. MATHEWS.

KENDALL'S SPAVIN CURE.

Is sure in its effects, mild in its action as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargments, such as spavens, splints, curbs, callous sprans swellings and any lameness and all enlargemehts of the joints or limbs, or for effeumtism in man and for any purpose for which a liniment is used for man or beast. It was known to be the best liniment for man everused; acting mildly and yet certain in its effects. Send address for Illustrated Circular which we think gives positive proof of its virtus. No remedy has ever met with such unqualified success to our knowledge, for beat tas well as man.

Price $, per bottle, or six bottles for $5. All Druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, Dr. R. B. J. Kendall & Co., Enosburgh Falls, Vt.

Garfield's Doctor Bills.

WASHINGTON, Jan. 9.—It is learned from one of the surgeons who attended President Garfield that they have agreed that fair apportionment of compensation among them would be fifty thousand dollars for Bliss, twenty-five thousand each for Agnew and Hamilton, eight thousand for Reybnrn and one thousand each for the nurses, Mrs. Edson and Dr. Boynton The general opinion is that the committee will recommend that all the physicians, including Boynton, be paid about six or eight thousand dollars. The claim of Dr. Bliss is regarded as absurd as compared with those of Agnew and Hamilton, about the value of whose services no question has ever been raised. Drs. Barnes and Woodward, having been detailed from the army and navy for this special service, will be compensated by increase of rank.

DECATUR REVIEW.

TUESDAY, JAN. 10, 1882.

To Our Daily Subscribers.

Hereafter the carrier boys will make collections on Saturdays, giving a reciept for the amounts paid We will be pleased to have reported to us any delinquencies on the part of the carriers, or any failures to get the papers

LOCAL PARAGRAPHS.

Fort Wayne has the small-pox and it is on the increase.

Mrs. J. O'Bannon, of Litchfield, is visiting the family of J. H. Brown.

Mrs. J. H. Brown, living on North Edward street, has been quite ill for three or four days.

Col. Robert Andrews has been appointed general superintendent of the consolidated Wabash lines.

Rev. J. Z. Tyler, of Richmond, Va, arrived in this city last night, and will preach at the Christian church this evening.

Sheriff Foster now has thirty seven boarders, and more are expected. Twenty seven out of the thirty seven are charged with penitentiary offences.

Austin, Friends Creek, and Whitmore townships will hold public meetings within a few days to discuss the question of locating the new county home.

Supervisor Hoyt, of Harristown has gone to Jacksonville to try to arrange for the keeping of the insane, now in the county jail, in the state asylum

H. J. Freeman, of Lovington, who was tried at Sullivan last week for poisoning his wife, was found guilty and sentenced to fifteen years in the penitentiary.

There will be religious services at the United Brethren church this evening and every evening this week. Rev. Trueblood extends a cordial invitation to all to attend.

The Tuscola *Journal* was purchased on Friday last by S. C. and G. M. Glasco for the sum of $2,830. They will continue it as the leading republican paper of Douglass county.

F. F Randolph, of this city, has bought the Neal Bros. flouring mill at Charleston, Ills., for $10,000 This makes $25,000 that Mr. Randolph has paid for real estate within a few days.

The case of the People vs. George Lander, charged with rape, will be called in the circuit court to day. There are a large number of witnesses A. G. Weber, Esq, appears for the defense.

Sunday two convicts confined in the solitary cells of the southern Illinois penitentiary for punishment, made their escape by cutting out of the cells and through the roof of the solitary building.

Yesterday Amanda Kitchen, Julia Bannister and Lottie Sweeney, all colored, were arrested by Deputies Weitsel and Post, on charge of keeping a house of ill fame. In default of $200 bail, each, they took board and lodging with Sheriff Foster. The queen bee is still at large

Geo. H. Daniels has resigned the position of general ticket agent of the Wabash, and H. C. Townsend has been appointed general superintendent of the ticket and passenger department. Mr Townsend has by his promotion attained one of the most important positions of the class in the country.

The state department of agriculture has prepared a table showing the yield of the corn crop of the state for 1881, as reported to the department on December 20th. The table shows the disastrous effects of the drouth in the southern divisions, where it was most severely felt. The total yield is 174,995,707 bushels, which is 70 per cent. of the crop of 1880, and 50 per cent. of the crop of 1879. In thirty four counties classed as the southern division, where the drouth was most severely felt, the average yield per acre was but 5½ bushels.

A fellow named John Davis approached the city marshal of Springfield on Sunday and asked to be arrested. He stated that eight years ago, while a Chicago hotel-porter, he had stolen some money, a diamond ring, and other valuables. He was suspected at the time and placed under arrest, but the grand jury failed to indict him, and he was released. Since then he had wandered through the country, suffering from remorse, and now wanted to undergo the penalty of the law. The marshal was somewhat puzzled as to what he ought to do in the premises, but he decided to lock the fellow up, in accordance with the strangers' request, and communicate with the authorities in Chicago

PERSONAL.

O. E. Harris, of Kenney, was at the New Deming yesterday.

J. P. Faris, of Niantic, has gone south after "Jersey cattle."

Mr. O. Z. Greene and family have gone east and will spend a few weeks in the Old Bay state.

Charley Ferguson, of the Wabash, is now firing on the "cannon ball" between here and Hannibal.

Col. H. W. Rowell, of this city, has a clerkship in the office of the clerk of the house of representatives.

Manager Haines took hold of the paper and brush himself yesterday, and shows that the bills can be put up without Pard.

Miss Maggie Thompson, of Mechanicsburg, who has been visiting in the city for the past fortnight, returned home Saturday.

C. R. Spore, late reporter and general solicitor for the *Sunday Blade*, has become editor and sole manager of that paper. He says he hopes to make the *Blade* a grand success. Long may he wave and prosper! Mr. Spore is a clever gentleman, and will be active in the interest of the *Blade*

The County Poor

Yesterday Supervisor I. N. Hoyt went to Jacksonville and arranged with Dr. Carriel, of the state hospital for the insane, for taking the insane of this county, now in the jail, until provision can be made for their proper care here. To-day they will be committed anew before Judge Greer, as the law will not permit a superindent of a state asylum to take patients who have not been recently tried The state hospital is full, but considering the situation, an effort will be made to accommodate the extra patients from this county. Five will probably be sent: Henderson Fleet, John Wooten, Martin Shellehan, James Dubois, and Pete Jimeson. Frank Nelson and Blind Billy Hill can be accomodated here. Nelson is a hand that is almost indispensable in the care of others, and doing work about the house.

Three of the county poor were removen to "Idlewild" yesterday, where Steward Magee is already in charge, and the others will be removed from the tabernacle to-day. She roster at "Idlewild" will be as follows;

Barney Flannigan, Miss Lifa Goodman, Geo. McClaskey, James Green, John Moore (boy), Anna Hill, Adam Smith, Jane Brasket, John Hitt (boy), Minerva Maple, Frank Nelson, Sally Peters, Lizzie Brady, Dr. Webster, John Baughman, Simon McNamara, Ann Scott, Nancy Johnson, Mary Adams, Maggie Martin, Sarah Malhoity and Bill Hill.

The young man who wrote the item about two Decatur business men being drunk and disorderly on Saturday night, drew largely on his imagination. His paper gets a large share of its patronage from business men, and it should not lie about them. He had better buy five cents' worth of common looking glass and look at himself.

Mr. Zeniah Kious will sell at his residence on the old Solomon Ebry farm, three miles northeast of Oakley, on January 24, his personal property consisting of stock, grain, farming implement, wood, household and kitchen furniture, etc, etc. Mr. J. Boner will cry the sale.

Blanche Beck at one time a denizen of the "haunted house" was taken in by Officer Mason on Saturday night, and yesterday was assessed $25 and costs by 'Squire Allbert. In default of payment she went back to the calaboose, She hails from Bloomington.

The attention of our readers is called to the advertisement of the "Popular New York Store" in another part of this morning's issue. The "ad." tells the story, and Mr. Hagerman and his accommodating clerks will take pleasure in showing the goods.

Jimmy Carroll yesterday paid his fine and costs amounting to $40, and was discharged from the custody of the sheriff. He is a happy lad, and if he will only keep his good resolutions, he will not be in danger of getting into a similar tight place again.

Frank Priest was out yesterday measuring the distance of his proposed extension of the street railway across the square and down South Main street. He will lay the track as soon as permission can be obtained from the city council.

Mr. Alex. Dowers, of Lake City, has sold his farm of sixty acres to W. H. Ennis, of this city, for $45 per acre. Mr. Dower will probably locate in Polk county, Nebraska

Persons in the city yesterday from Cerro Gordo report that there are no new cases of small-pox there, and that Miss Smith is improving.

Charley Adderly was on one of his periodical sprees last night, and Cap. Mason was called to quell the the racket.

Coal at Niantic.

Niantic had a coal meeting on Saturday last, which was largely attended. Hugh Mooney proposed that he would sink a shaft 600 feet, or find coal for $8,000, pay to be in coal from the shaft at $2 per ton. About one-half the amount was raised at the meeting, and it is expected the balance will be subscribed on Saturday next.

SMALL-POX, SCHOOLS, ETC

Vaccination

The action taken by the State Board of health in regard to the suppression of the small-pox is a wise one and should not be hindered by school officers or those persons to whom it applies. In view of the near approach of this dreaded disease to the very confines of our county we desire to call the attention to the following points: viz:—

1. The order requiring all persons who attend the schools to present satisfactory evidence of proper and successful vaccination on or before Jan. 1, 1882 has been extended the time to Jan 25th, 1882. All persons who do not present these evidences by that time are to be excluded from the schools.

2. The order is imperative and authorized by law, and endorsed by the State Superintendent of Public Instruction.

3. A "typical" scar is accepted as sufficient evidence of a previous vaccination, and consists of a depression, pitting, &c.

4. Blanks for scholar's certificates may be had at the superintendents office any Saturday, or at Hubbard and Swearingen's drug store any other day of the week. They are free to those who need them.

5. Girls over *twelve* and boys over fourteen must in every case be revaccinated, no matter how satisfactory the scar may be, unless the evidence is conclusive that a satisfactory *primary* vaccination has been effected previous to those ages and within the past *five* years.

6. If the attempt proves to be a failure after *five* repeated vaccinations at intervals of a *fortnight* then pupil receives a certificate marked "failure" and cannot be excluded from the schools.

7. Teachers must familiarize themselves with the blanks in order to know when they are properly filled out. (They will be furnished with envelopes and blanks for reports to the Board in due time.)

We have stated in substance all of the requirements of the law, and bespeak for them a speedy compliance. Patrons will please bear in mind that it is not intended to debar a single child from the privileges of school attendance; "but it is earnestly hoped to secure, through its agency, to the rising generation at least, the benefits of a protective measure against small-pox.

CANTION; In carrying out the requirements of the law, parents should see to it that virus which is known to be strictly *bovine* is used virus which has been long "humanized," that is has been transmitted from person to person is not only dangerous but offers imperfect protection against the ravages of the small pox.

JOHN TRAINER, Co., Supt.

Macon is to have a school meeting next Saturday. School officers and teacherr of that vicinity are invited to attend.

Long Creek had a school meeting last week. The attandance was good as well the interest.

The Central school taught by Mr. Charles McMahan has been closed on account of expected small-pox in the neighborhood.

The schools of Mt. Zion are in a prosperous condition. The principal is entering into the work of grading with an energy which is telling on his pupils.

Warrensburg schools were closed on account of coal famine, on Wednesday of last week. We hope the famine is over for the winter.

The questions for the February examinations have been sealed in envelopes and will be mailed to teachers about the 5th of that month The conditions of breaking these seals are as follows: The seals are broken by a committe; must be made up by electing *two* girls and *one* boy for this purpose.

This committee will find a blank enclosed on which it will certify to the condition of the seals and the time of opening. The certificate will be returned with the work of the school and will be bound with it as an evidence of good faith in the exhibit.

Pupils should see to it that the above requirements are carried out in every particular.

For Sale.

"Christie & Barnes," Abstract Books. As executor of the will of William Cantrill, deceased, I will sell the above abstracts to property in Macon county at public sale of personal property, belonging to said estate. Sale to take place at late residence of said Cantrill on Saturday, Jan. 21st, 1882.

ATTENTION!

One year ago the first of last October I commenced business. My sales for the last three months have been twice as large as for the corresponding months last year, which fact encourages me to continue to sell good honest goods on extremely close margins, believing that such a course will greatly increase the volume of my trade and benefit me as well as my customers. In order to clearly demonstrate that I will sell you good Boots or Shoes for less money than you can buy them elsewhere, it will be necessary for you to call.

I shall be glad to see you at any time, promising you the best of treatment and a genuine bargain every time you favor us with your patronage.

I remain very truly yours,
